MasterVision Dashboards

MasterVision's dashboards provide an **'at a glance' overview** of key reports by enabling you to view multiple **charts**, **data tables** and **counts** within a single page, and can be created and edited with **easy-to-use tools**.

KEY FEATURES:

✓ Dashboards can deliver **essential management information** in a highly visual format.

✓ Track all of your **key performance indicators** including customer recruitment, financial income, sign-ups, opt-ins, and more.

✓ Create **customised dashboards for each department or team**, e.g. Management Dashboard, Marketing Dashboard, Sales Dashboard etc.

✓ View **tracking graphs**, **pie charts**, **maps, data tables** and **search counts** together on a single page.

✓ **User-friendly tools** make creating and editing dashboards a **quick and easy** process.

✓ Add or remove **sections**, insert **charts** and **data tables**, and **customise headings** and **text** as required.

✓ Include **dynamic data in text** such as the **date of your last data build** and **search counts**.

DASHBOARD SUMMARY: Pick a shared or personal dashboard to view/edit or click to add a new dashboard.

EASY EDITING: Click on the icon next to each piece of content to make changes when in 'edit mode'.
